EXPLANATION OF 'TAXING AUTHORITY TAX INFORMATION' SECTION

COLUMN 1 - "2024 TAXABLE VALUE"

This column shows the **prior** assessed value less all applicable exemptions used in the calculation of taxes for that specific taxing authority.

COLUMNS 2 & 3 - "YOUR FINAL TAX RATE AND TAXES LAST YEAR"

These columns show the tax rate and taxes that applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.

COLUMN 4 - "2025 TAXABLE VALUE"

This column shows the **current** assessed value less all applicable exemptions used in the calculation of taxes for that specific taxing authority. Current year taxable values are as of January 1.

COLUMNS 5 & 6 - "YOUR TAX RATE AND TAXES THIS YEAR IF NO BUDGET CHANGE IS MADE"

These columns show what your tax rate and taxes will be IF EACH TAXING AUTHORITY DOES NOT CHANGE ITS PROPERTY TAX LEVY. These amounts are based on last year's budgets and your current assessment.

COLUMNS 7 & 8 - "YOUR TAX RATE AND TAXES THIS YEAR IF PROPOSED BUDGET CHANGE IS MADE"

These columns show what your tax rate and taxes will be this year under the BUDGET ACTUALLY PROPOSED by each taxing authority. The proposal is NOT final and may be amended at the public hearings shown at the top of this notice. The difference between columns 6 and 8 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.

EXPLANATION OF 'PROPERTY APPRAISER VALUE INFORMATION' SECTION

Market Value in Florida is also known as "just value" as provided by the constitution and described in state law. It is the amount a purchaser willing but not obliged to buy would pay to one willing but not obliged to sell, after proper consideration of all eight factors in section 193.011, F.S.

Assessed Value is the value of your property after any assessment reductions have been applied. This value may also reflect an agricultural classification. If assessment reductions are applied or an agricultural classification is granted, the assessed value will be different for School versus Non-School taxing authorities and for the purpose of calculating tax levies.

Assessment Reduction: Properties can receive an assessment reduction for a number of reasons. Some of the common reasons are below:

- There are limits on how much the assessment of your property can increase each year. The Save Our Homes program and the limitation for non-homestead property are examples.
- Certain types of property, such as agricultural land and land used for conservation, are valued on their current use rather than their market value.
- Some reductions only lower the assessed value for certain taxing authorities.

If your assessed value is lower than your market value because limits on increases apply to your property or because your property is valued based on its current use, the amount of the difference and reason for the difference are listed in the box titled "Assessment Reductions".

Exemptions are specific dollar or percentage reductions in value based upon certain qualifications of the property owner. The primary example is the homestead exemption. The value of each exemption that applies to your property is listed. Like assessment reductions, some exemptions only apply to certain taxing authorities.

In addition to the homestead exemption, there are other personal exemptions for widows, widowers, limited-income seniors, people living with disabilities including veterans and first responders, deployed military service members and others. If you have questions or to find out if you qualify for additional property tax exemptions, call (850) 606-6200 or visit www.leonpa.gov and click on the exemptions tab. Remember that you must apply with the Property Appraiser on or before March 1.

Taxable Value is the value used to calculate the tax due on your property. Taxable value is the assessed value minus the value of your exemptions.

New Owners: What You Need to Know About Property Taxes

Anytime there is a change in ownership per F.S. 193.155, the assessed value of the property must be reset to the current market value in the year following the sale. This could lead to substantial changes in the tax amount. For example, the previous owner(s) may have qualified for property tax exemptions and assessment limitations; however, these benefits do not transfer upon the sale of the property, which may result in the property taxes increasing.
